## 1.-WHERE IS SPAIN?

## 2.-WHERE IS NAVARRA?

Navarre, the Comunidad Foral de Navarra, is situated in the North of Spain, at the western end of the Pyrenees, Navarre shares a 163-kilometre stretch of frontier with France. Navarre's area has got 10,421 km<sup>2</sup>. Navarre is traditionally grouped into three areas arranged from North to South: the Mountains (Montaña), the Middle Area (Zona Media) and the Ribera, on the banks of the Ebro River.

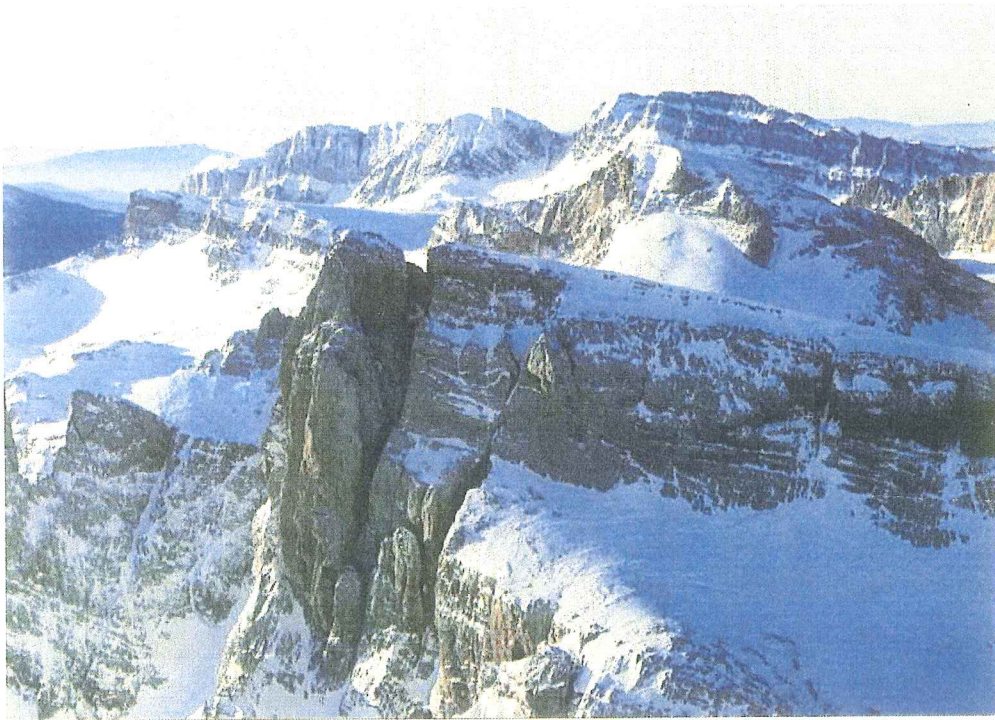

Navarre

### 3.-WHAT DOES NAVARRA LOOK LIKE?

#### Biodiversity

Biological diversity is the main characteristic of Navarra's rich natural heritage. Biodiversity in Navarra is the result of the region's special geographical location, where three biogeographic areas -the Alpine, the Atlantic, and the Mediterranean- come together. It also has to do with the fact that the region is not as densely populated as the rest of Spain. Other factors favouring biodiversity are the harmonious development, conjugating economic and social growth and a respect for nature, population's environmental awareness and suitable habitat management policies.

Navarre Pyrenees

## Ecosystems

Navarre is a rich mosaic of landscapes, where countless animal and plant species live. Nine main ecosystems can be distinguished: the alpine system, the fluvial areas and humid zones, the forests, the Mediterranean shrublands, the pasturelands and heathlands, the rocky places, the steppes, the limestone areas, and the salt marshals and closed (endorheic) basins. In all these ecosystems, very different species live together: brown bears, European minks, grouses, white-backed woodpeckers, otters, vultures, bearded vultures, Egyptian vultures eagles, and bitterns, to name but a few.

Castildetierra Peak ( Bardenas Reales Natural Park)

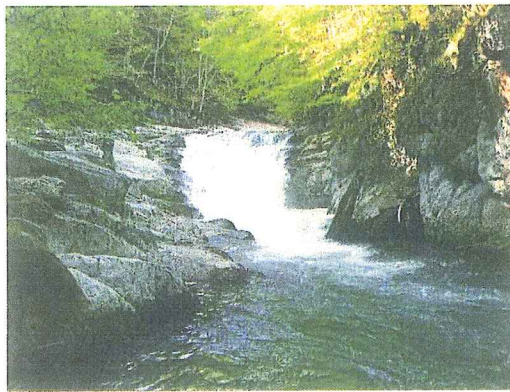

## Species

Navarra's variety of climates and landscapes, from the Cantabrian valleys and the peaks in the Pyrenees to the desert of the plains of the Bardenas Reales Biosphere Reserve and Natural Park, makes this region a real book of nature, 2,652 species of ferns and flower plants ( 20% of all the species in Europe), 27 species of fish (18%), 43 species of amphibians and reptiles (24%), 236 species of birds (47%), and 75 species of mammals ( 50%) live in Navarra.

## Forests and rivers

Two of the main characteristics of Navarra's natural heritage are forest conservation (64% of the region's surface area is forest), and the abundance of water resources. There are 7,450 kilometres of rivers, with two distinct biotopes: the mountainous areas, inhabited mainly by the Salmonidae, where the predominant species are fish like trout, brown trout, dace, loach, cyprinid fish, goby, salmon; and the lower and coastal areas, where the Cyprinidae family prevails, with rough water cyprinid fish- French nase, barbell, mountain barbel-, and calm water cyprinid fish- tench, carps, goldfish- replacing brown trout and dace.

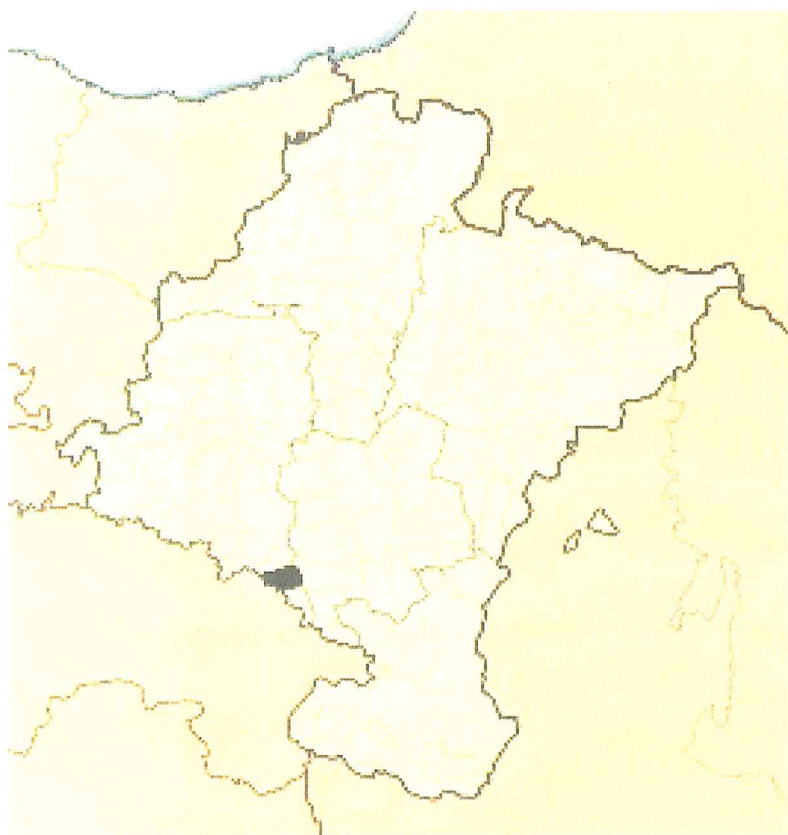

Irati River

Where is San Adrián?

San Adrián village is situated in the southwest of Navarre, in the Ribera, near Ebro and Ega river. 6.200 people live in San Adrián. The village is not very big but it's very important because of the food industries situated there.

WHAT DOES SAN ADRIÁN LOOK LIKE?

#### ALFONSO X EL SABIO PUBLIC SCHOOL'S SOME DATES

We teach from 3 to 12 years old's pupils (Pre-school Education and Primary).

We are around 50 teachers. There are 550 pupils. The pupils and teachers in the second level of Primary are doing this project.

Lessons start in September and finish in June. We have summer holidays during August and also the last week of December and the first of January.

Lessons are from Monday to Friday, from 9:10-17:00. We have a small break (10:50-11:00) and a big break from 13:00 to 15:20.

Pupils study these subjects: Math, Spanish, Science, Physical Education, Music, Art, Religion (not compulsory)

Pupils study mainly in Spanish but in English too. Some pupils (20%) study Euskera (the language of the Basque country, a language spoken by a minority in Navarre). In 4<sup>th</sup>, 5<sup>th</sup> and 6<sup>th</sup> level, they can study French and German too.

In the most classrooms we have a digital blackboard.

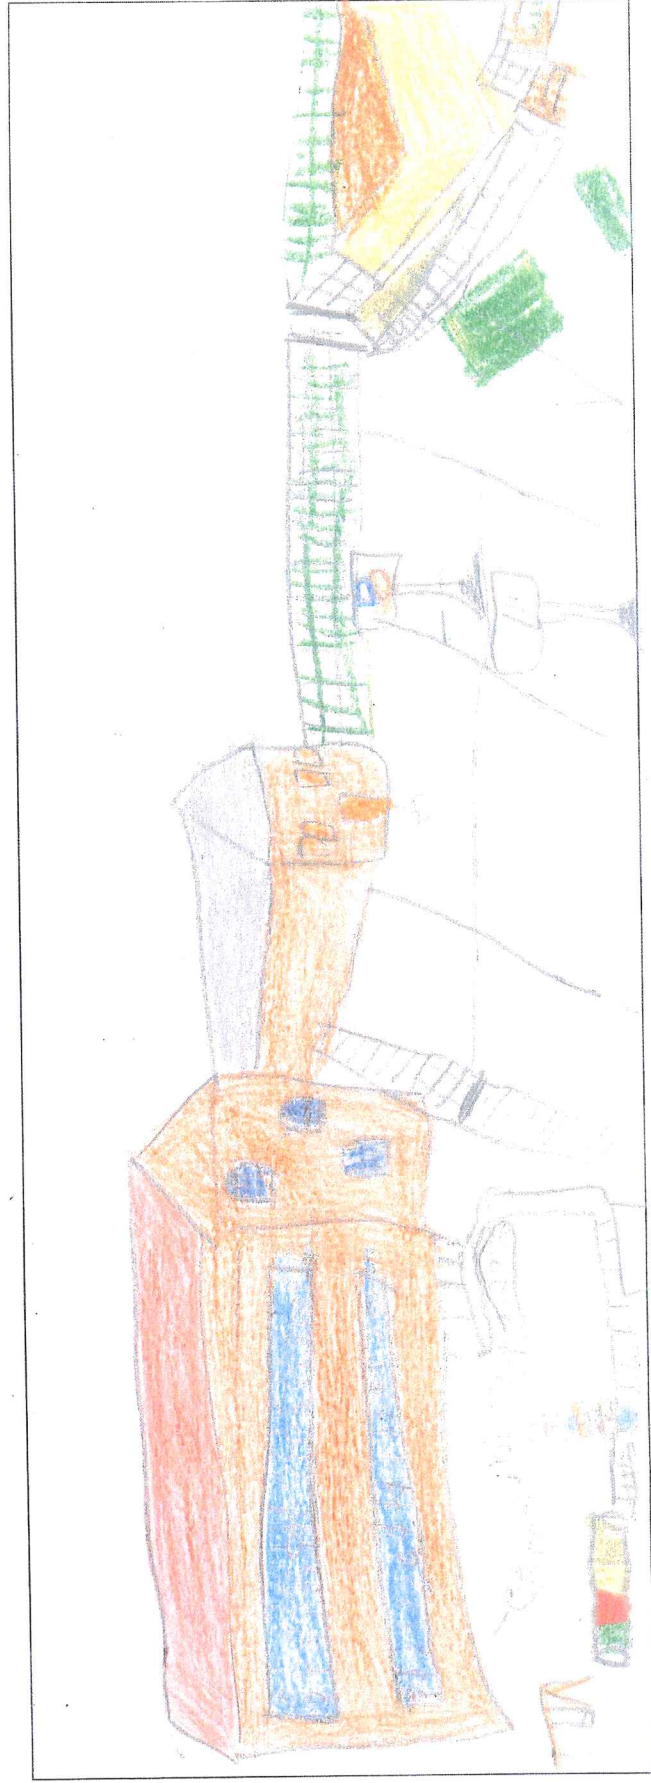

**THIS IS OUR SCHOOL**

Mi colegio se llama Alfonso X el Sabio.  
Se encuentra en el pueblo de San Adrián de la provincia de Navarra.  
Nosotros estamos en 2º curso de Primaria.  
Nuestro profesor se llama: Maria Pilar, M<sup>o</sup> del Carmen y Pilar.
